

ELECTROMAGNETIC WAVES MONOGRAPH SERIES ON PROGRESS IN ELECTROMAGNETICS RESEARCH (PIER)

PROGRESS IN ELECTROMAGNETICS RESEARCH (PIER) is a book series that publishes comprehensive articles on all aspects of theory and applications of electromagnetics. For publication in the series, Submit five copies of the manuscript to Chief Editor, Dr. J. A. Kong, Room 26-305, 77 Massachusetts Avenue, Cambridge, MA 02139, USA. The book series only accepts articles of excellent quality for publication, a manuscript may be rejected for the simple reason that it does not meet the high standards set for the series. Manuscripts submitted to the series should be original and must not have been submitted simultaneously to any other journal or book series. Authors are solely responsible for the factual accuracy of their articles, and all articles submitted are understood to have received clearance(s) for publication.

Manuscripts must be in English and should be numbered beginning with the title page. The first page should contain only the title of the paper, name(s) and address(es) of the authors, and the name and address of the author to whom correspondence and proofs should be sent. Headings and subheadings for different sections of the paper (e.g., Introduction, Formulation, Methods, Results, Discussion, Conclusion) should be clearly indicated. Detailed mathematical discussions should be placed in an appendix. All tables and figures should have captions and should be in a form suitable for reproduction. References should contain full title, place and year of publication, and be listed at the end of the article in the reference section. Technical reports, memos, unpublished or to be published articles should not be listed as references, only published work in journals and books may be cited as references.
